STOCK MARKET BASICS:

The stock market is a platform where shares of publicly listed companies are bought and sold. It helps companies raise capital and allows investors to earn returns.

RISK AND RETURN:

Higher returns in the stock market usually come with higher risk. Prices of stocks can go up or down based on market conditions, company performance, and global events.

INVESTING VS TRADING:

Investing is long-term (months or years) focusing on stable growth.

Trading is short-term (days or minutes) focusing on quick profit but higher risk.

BLUE CHIP COMPANIES:

Blue chip companies are large, stable, and financially strong companies like TCS, Infosys, Reliance, HDFC Bank, and ICICI Bank.

DIVERSIFICATION:

Diversification means investing in different stocks or sectors to reduce risk.

INDIAN STOCK MARKET:

The Indian stock market mainly consists of NSE (National Stock Exchange) and BSE (Bombay Stock Exchange).

NIFTY 50:

Nifty 50 is an index that represents the top 50 companies listed on NSE.

SENSEX:

Sensex is an index of the top 30 companies listed on BSE.

BULL MARKET:

A bull market is when stock prices are rising and investor confidence is high.

BEAR MARKET:

A bear market is when stock prices are falling and investors are pessimistic.

RISK MANAGEMENT:

Investors should always set stop-loss, diversify portfolio, and avoid emotional decisions.

TECHNICAL ANALYSIS:

Technical analysis uses charts, patterns, and indicators like RSI, MACD, and moving averages to predict price movements.

FUNDAMENTAL ANALYSIS:

Fundamental analysis studies a company's financial health including revenue, profit, debt, and growth potential.

RELIANCE INDUSTRIES:

Reliance Industries is one of the largest companies in India operating in energy, telecom (Jio), and retail sectors.

TATA CONSULTANCY SERVICES (TCS):

TCS is a leading IT services company providing software solutions globally.

INFOSYS:

Infosys is a major IT company known for software development and consulting services.

HDFC BANK:

HDFC Bank is one of India's largest private sector banks.

INVESTMENT ADVICE:

Long-term investing in strong companies is generally safer than frequent trading. Always research before investing.

DISCLAIMER:

Stock market investments are subject to market risks. Past performance is not guaranteed for future returns.
